

DURATRANS

Increases Transmission & Brake Durability

FEATURES & BENEFITS

- ◆ Eliminates Shift Hunting
- ◆ Adds up to 40% to Transmission life
- ◆ Increases Torque Converter life up to 58%
- ◆ Lowers Transmission Fluid Temp up to 10°F
- ◆ Improves Brake Pad/ Rotor Temps up to 125°F
- ◆ Speed settings are field programmable
- ◆ Smog Legal
- ◆ Keeps vehicle in Correct Power Band
- ◆ Intermittent Fault Filter (IFF)® technology filters out erroneous changes in sensor signals

FOR VEHICLES WITH O/D BUTTON

OVERVIEW

DuraTrans is field programmable for the speeds you want O/D to be enabled & disabled.

Example:

- ◆ When vehicle is started, overdrive is disabled until:
 - Vehicle speed reaches 55 MPH
- ◆ Once enabled, it will not be disabled until:
 - Vehicle speed drops to 30 MPH
- ◆ Once vehicle speed is below 30 MPH
 - DuraTrans will not allow O/D to be enabled
- ◆ If vehicle speed is above 30 MPH, manual O/D control is available (helpful for descending a steep grade)
