

ECO-STAR™

ANTI-IDLE STOP/START TECHNOLOGY

FEATURES & BENEFITS

- ◆ Automatically turns the engine off when specific conditions are met
 - ◆ Vehicle in "Park"
 - ◆ Battery voltage normal
 - ◆ A/C "off"
 - ◆ Driver/ Passenger door open
- ◆ Automatically turns the engine "on" when either condition is met
 - ◆ Service brake pressed with doors closed
 - ◆ Battery voltage is low
- ◆ Configurable Idle Timer Shutdown
- ◆ Easy to install
- ◆ Microprocessor controlled
- ◆ Helps to meet new state anti-idling regulations

WHY ECO-STAR

- ◆ **Fuel Savings**
 - ◆ Pays for itself in a short period of time
- ◆ **Efficient**
 - ◆ It is more efficient to turn a warm engine off & then back on, than to idle for more than *5 seconds*
- ◆ **Automatic**
 - ◆ Conserve fuel without your driver thinking about it
- ◆ **Eco-Friendly**
 - ◆ Reduces CO₂ emissions (saves 19lbs per gallon of gasoline burned just for idling)
