

# WORK TRUCK SHIFT INTERLOCK

## Completely Automatic Shift Interlock

### FEATURES & BENEFITS

- ◆ Fully automated shift interlock system
- ◆ Prevents driving the vehicle with equipment not stowed (i.e. crane)
- ◆ "Plug & Play" OEM vehicle harness connectors; no cutting of factory wires
- ◆ Solid state, microprocessor controlled unit
- ◆ CPU performs self-diagnostics every time the vehicle is started
- ◆ Intermittent Fault Filter® (IFF) technology, filters out erroneous changes in sensor signals
- ◆ Compact unit is easy to install

### OVERVIEW

- ◆ **Improves Safety** - Prohibits shifting out of park when equipment is not secure, reducing the chances of an accident or injury claim
- ◆ **Completely Automatic** - Supply a ground signal when the equipment is not secure & the WTSI automatically engages the shift lock
- ◆ **Fast Installation** - Just plug the WTSI's "Plug & Play" harness connector between the two parts of the OEM connector & hook up a ground connection to your equipment & you're set to go!
- ◆ **Uses Include** -
  - ◆ Bucket Not Stowed
  - ◆ Crane Not Stowed
  - ◆ Lift Gate Open
  - ◆ Hatch/ Door Open
