

InterMotive is pleased to announce the addition of Todd Long as our new Sales Engineer working out of the Elkhart, IN area. He joins InterMotive with 10 years of Electrical Engineering experience in OEM bus manufacturing as well as several years working for Tier 1 suppliers to Ford, GM and Chrysler.

“Todd’s engineering background coupled with living in the Elkhart area will make it easier to provide superior sales and service support to our customers. He is a tremendous addition to the team” commented Marc Ellison, VP of Sales & Marketing.

Todd shared his feelings about joining InterMotive at our recent company meeting, “I am excited about joining InterMotive and look forward to using my technical skills to assist our customers in utilizing our products to their full potential”, and has hit the ground running.
